The GRAAL Award was established to recognize the achievement of business analysis work. We present this award annually to a business analysis team that demonstrates leadership and application of business analysis practices promoted by IIBA®.

The IIBA® Quebec City Chapter in association with Ottawa-Outaouais and Montreal Chapters are pleased to invite you to submit your application for the 2022 GRAAL Award.

## Eligibility criteria

Business analysis encompasses all the tasks and techniques used to liaise between the stakeholders of an organization in order to understand the structure, policies and operation of the organization and ultimately recommend solutions that will allow the organization to achieve its goals.

Business analysis is recognized worldwide by a set of knowledge areas, tasks and techniques as provided in the Guide to the Business Analysis Body of Knowledge® (BABOK® Guide).

To be eligible for the 2022 GRAAL Award, you must demonstrate how your business analysis team exhibited leadership in a project or a product iteration that was completed between January 1 and December 31, 2021, and whose result has an impact for a Canadian organization.
